

## Jobs/Work Opportunities

Our community offers a multitude of job opportunities to community members such as:

- Technician (repair & maintain technology)
- Farmer (grow crops)
- Builder (create homes & buildings)
- Stevedore (transfer shipments from boats)
- Tour guide (guide the community tour)
- Teacher (for the schools)
- Librarian (for the libraries)
- Fisher (fishes)
- Chef (works at restaurants & cooks food)
- Banker (operates banks)
- Tailor (make clothes to sell at stores)
- Artisans (make various items to be sold at stores)
- Electrical engineer (make various electronics to be sold at stores & for the community)
- Police/crime enforcer (deal with crime)
- Doctor/Dentist/Nurse (care for patients)

All Jobs require at least 2-4 years of training before you can qualify as an official job worker.

## Housing/Plots

Our community offers many cheap, economical, and environment friendly plots, with electricity powered from windmills and solar panels.

Plots cost around \$50, 000 to \$100, 000 and contain the basic needed rooms. You can add your own furnishing if you wish.

Houses are built with a durable concrete and plastic compound, and light hardwood floor. Base models consist of two bedrooms and two bathrooms. Smaller houses cost less, while larger and bigger houses cost more, sometimes up to twice the amount of regular houses.

Some higher-end plots bundle with an electric car as well as a home charger.
